

**ORTIZ DENTAL**  
DENTAL IMPLANTS & COSMETIC DENTISTRY

*Your Beautiful & Healthy Smile Starts Here*

**ORTIZ DENTAL** focuses on the needs of every individual. Each one of our patients deserves unique and personal attention, so it is extremely important that you help us understand your needs and concerns in detail.

Our goal is to help you smile with absolute confidence. We want to work together to ensure that your dental work satisfies not only your practical needs, but your aesthetic needs as well.

To help us create your personal plan please answer the following questions:

1) Is there any area in your mouth that causes pain, discomfort or sensitivity?

If so, what area?

2) Are there any issues that are preventing you from eating and enjoying your food?

If so, please share it with us:

3) Do you believe that you chew uniformly? That is to say, do you use both sides of your mouth equally when chewing?

4) Do you smile and present yourself confidently? If not, what do you think limits you?

5) When with friends or family, do you feel comfortable smiling in photos?

6) When with friends or family, do you feel comfortable chewing?

7) Have your dental problems caused you to miss work or sleep uncomfortably?
